U.S. EPA  
1200 Sixth Avenue, M/S HW-106  
Seattle, WA 98101

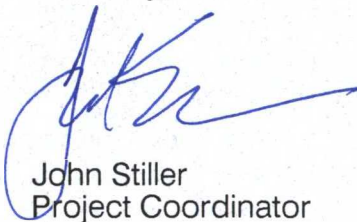

Re: EPA RCRA Facility Assessment/VSI, Piers 90 and 91

In the EPA September 29, 1992 letter to Burlington Environmental Inc. (BE) and the Port of Seattle (POS), regarding the RFA/VSI to be conducted of Piers 90 and 91 on October 20-21, 1992, a reference was made to the draft 1988 Chempro RFA report by Tetra Tech.

As you suggested, BE is requesting a copy of the draft 1988 Tetra Tech RFA report pursuant to the Freedom of Information Act/FOIA [5 U.S.C. Section 552, and the regulations promulgated thereunder, 40 CFR Part 2]. BE understands there may be search and duplicating fees incurred as a result of this request.

If you have any questions or require further information, please contact me at (206) 223-7596.

Sincerely,

John Stiller  
Project Coordinator
